4. Error Report

The *Error Report* is a correction tool that contains detailed information about fatal errors that occur in a transmission of Form HUD-50058 data to MTCS. If your PHA receives fatal errors, review the *Error* report to identify the type and description of the error. You must fix all fatal errors in your transmission and resubmit the family's data to MTCS.

Data Field	Business Rule
HA Mailbox ID	PHA mailbox where MTCS sends the Error Report Owner/HA Mailbox ID from the header record
Submitter ID	HA ID of the PHA or vendor that submitted the Form HUD-50058 data to MTCS Service/Return Mailbox ID from the header record
